

STONEWATER ADVENTURE SCHOOL

Expectations

Bible and Discipleship Training:

We are hoping to take the students through the Bible from Genesis to Revelation alongside working through teaching on identity to vocation. Our desire is to give them a solid foundation in who they are in Christ as well as a strong foundation on God's Word with the confidence and desire to study and learn from it. Our heart is that they will see God through His Word and all that He has created.

Because lectures won't always happen in a traditional classroom, we would like to ask a few questions. We want to set you and the students up for success. That being said,

- Do you have a preferred setting or location for lectures either inside a building or on an adventure activity?
- Would you present with a power point or technologically supported presentation?
- Are there any tools or resources that you would like to use while you teach (white board, computer, pictures/posters, props or illustrations)?
- What would you like the students to have with them during each of the lectures?
- Any hopes or vision you have for teaching that we can help make happen?

We are here to help support you while you are here supporting these students! If you have any questions or needs please don't hesitate to reach out to Mia O'Brien at mobrien@yd.org or 509-763-3161. Compensation is to be determined and will likely vary based on the program and length of speaking time through the program. We have included a packing list that we also provide to the students. It is not necessary that you will need everything on that list, but it will cover the necessities for any possible activity you may participate in while with Stonewater Adventure School. Feel free to ask for a condensed or tailored list once you have a date set for lecturing.

If you have any questions, call 509-763-3161 or email stonewater@yd.org
